Personal Greeting.

Established 1876. My Trade Mark

Dear Friends:—The very best thing about my seed business—what I value most—is the long list of good friends I have made. A few of the kind letters from my customers are given in this book. I only wish there was room to print hundreds more. I don't know one of them personally, but they are fast friends of mine and helping on the success of my seed business. No words of mine can ever express my gratitude to you all for your kindness.

A Farmer's Son who Followed the Plow.

I am a Farmer's Son. I grew up on the farm—far from railroads, and the cities maddening crowds. My Ancestors were Quakers—all Farmers from time immemorial. I grew up among Farmers and Gardeners in fertile Dutchess Co. Early indeed did I terri this truth—that "men do not gather figs of thistles," and that high grade, CAREFULLY SELECTED seeds were absolutely essential for success.

This Kind Only

have I been growing and selling for over 25 years. The Seed business is my sole life's work, and I am sure I understand my business. My heart is in sympathy with honest planters everywhere. I personally attend to your orders, and read all your letters. I have personally selected everything in this catalog—for your best success and profit.

I am not a City Seedsman

whose business is done by disinterested clerks who neither know or care anything about gardening. I do not charge big prices to meet the enormous expense of business done in a city. The tremendous cost of bulky, flashy catalogs, and advertising is all saved for you. 'Tis for this I can give YOU more and better seeds, far better discounts, and Premiums of such great value they always excite wonder and astonishment.

Best of Mailing Facilities.

I am situated on the banks of the beautiful Hudson River—right among the most expert Farmers and Gar-deners. Five mails each way every day.

Please send me Your Photo

when you send in your order, or photos of your family, children, home, garden, stock, scenery around you, etc. You may be sure I will return the favor at once. I feel deeply interested in all my customers—I cannot tell you how much. I carefully preserve every photograph—treasuring them very highly. ** Be sure and write your name and address on back of every one, and later I may remember you again with something nice. Here is a new engraving which shows how your seedsman looks at the present time. With thanks and best wishes, A. T. COOK. Hyde Park, N. Y.

Dear Friends:—One word more. While I am pleased to sell my seeds, and give premiums to my worthy customers and club-agents, I desire more—that I may induce the young to sum as a deadly when nil intoxicants and tobacco; and to lead a happier, better and longer life. Your Friend, A, T. COOK. Hyde Park, N. Y.

Colden Tankard Mangel-Wurtzel Beet.

Colden Tankard Mangel-Wurtzel Beet.

This is decidedly the finest mangel in cultivation, and best for dairy nse. Of very large size, clean and handsome, easily pulled as it grows two-thirds out of the ground; will bear close planting. The flesh is rich golden yellow, exceedingly nutritious. It is early, hardy, and a very heavy cropper. The Golden Tankard has quickly taken the lead of all other varieties. It eontains a large percentage of sugar and is much relished by milch cows and sheep. One of the best of keepers. Farmers should give root crops more attention. The wonderful results of feeding roots are plainly seen in the health and condition of the animals, and in the greatly lucreased yield of milk and rich, golden butter in cows.

Selected seeds in LARGE PACKETS 5 ets. each, 6 for 25 ets.

Improved Purple Top Yellow Rutabaga.

This variety cannot be too highly recommended, and no sort will produce such handsomely formed roots, or greater yield. It is of the choicest quality, and full of nourishment; very solid, of a beautiful orange color, with a handsome purple top. Will keep all winter and even into the following summer. It is the result of many years of careful selection.

Protect The Birds.

Protect the Birds. Encourage them in every way. They are the Farmer's and Gardener's best friends. They work for us, and sing for its from morning till night. They are God's own messengers of love. They fill our homes, our meadows, and the woods with Heavenly music. Do all you can to encourage them by precept and exexample. Put up houses for the wrens and blue birds. It will pay. Feed the birds in winter. I feed them every day, and they come from far and near. It is a delight to see them. I am sure no Lady-customer of mine will be guilty of the cruelty of wearing birds on their hats, and I earnestly pray that each one will do their utmost to convert others from this barbarous practice. EXTRA PROLIFIC POP CORN.

This remarkable new variety is the most astonishing yielder ever found among Pop Corn. Its enormous yields seem almost fabulous, for it produces 4 to 12 good ears ou every stalk. Pops well soon as cured. Ears are 6 to 8 inches long, filled with light colored grainsvery handsome. Stalks grow 6 feet high. Prof. With-

erell of Davenport, Iowa says "I selected 10 stalks on my farm with 121 cars, or an average of 12 ears to the stalk ione stalk had 19 ears." Was such a yield ever before heard of? Its popping qualities are remarkable, very large, and delictious flavor; 3 pints will make 1 bushel popped. You can raise 100 bushels of ears on an acre. "We live near a small village where but two families do not raise vegetables—yet we sold during the year \$37.77 worth. Our seeds cost \$4.50, leaving a clear cash profit of \$33.27. Besides we estimate we used fully \$100.00 worth for our own table—giving us better health, and saving much on meat, canned goods, grocery and doctor bills."

To do this we gave good care, planned to have vegetables both earlier and later than other people, and everything offered was washed and made attractive. Others could even do as well. Our garden is the best, and most profitable part of the farm." Clara S. Everts. Miss.

THE ASPARAGUS BEET.

This delicious species (also called Sea Kale, or Swiss Chard) is grown for its leaves only. The leaves are used like spinach, but the great value of the plant is its large, fleshy, mid-rib of the leaves which are cut and cooked like asparagus, and are EXTRA FINE. As a substitute for asparagus nothing could be better. Ready to use in 2 months from planting and may be used continuously all snmmer and fall. It is a most valuable vegetable—too good a thing to miss, and I hope every one of my customers will plant it. Pkt. 5c.

The Great Prize Pumpkin

KING OF THE MAMMOTHS

This grand, colossal variety is without a rival: it astonishes everybody by its mammoth size and heavy weight. Indeed no other pumpkin has ever attained

such enormous weights, or been awarded as many prizes. Think of it a single pumpkin weighing 298 lbs. (See Cut.) Is not this the greatest of all pumpkins? In France they have been grown to still greater size, and as many of my customers have as good, rich soil—as highly productive, as any there is in France or anywhere else on the face of the earth, I see no reason why they cannot be grown much larger here. The flesh and skim of this moustrous pumpkin is a bright golden color, very fine grained, and of excellent quality. Notwithstanding its enormous size, it is one of the best pie or table pumpkins ever grown, and is a splendid keeper. I hope all enterprising pumpkin growers will give this variety a trial. You will be survofa prize at your County Fair. Full directions on every packet, giving best methods of plant ing etc. to secure the largest specimens. See offer below. Extra seed saved from selected large pumpkins.

"There is no unbelief; Whoever plants a seed beneath the sod. And waits to see it push away the clod. He trusts in God."

MY SUPERIOR SEED is the very best I can grow or get. None are cheapor QUALITY considered. I do not try to compete with foreign trash, or that grown from scallions and refuse of crops. I could sell such for 2 cts. per packet—but they would be dear as a gift. With an experience of 25 years in gardening I know the value of high grade seeds. I have in the past, do now, and always will maintain this high standard.

POWELL'S PROLIFIC POLE BEAN.

This wonderful new variety, (first introduced by me,) originated in North Carolina—a few seeds were kindly sent me for trial by Prof. R. S. Powell, who writes:—'They are an extraordinary snap bean, surpassing anything ever seen in our section—bearing profusely, and continuing until frost; they are very tender and palatable—six bills are

enough for a family."

I have found this bean a most rampant grower, one plant filling a pole with a mass of vines—densely loaded with luscious beans. I do not claim too much when I say they

Are more than twice as productive as any other variety in existence. They are a sight worth seeing: almost a solid mass of pods from the bottom to top of the pole. The handsome green pods average 8 or 9 beans to the pod, grow very uniform, about 6 inches long: perfectly string ess, very thick meated, tender, rich and buttery: possess an exquisite flavor when cooked—many calling it without exception the very best bean grown. It is a late variety and continues in bearing so 'ong it might well be called "everbearing," I only offer it in packets.

Mr. A. T. Cook. Your Powell Pole Beans are WONDERFULT Prolific. I never saw anything to compare with them.

From 16 hills we sold \$7.65 worth and had all we could eat. I verily believe the hills would have paid 75 cts. each, had all been sold. You cannot over-recommend this MONEY-MAKER. You should say in your catalog that an ordinary pole will not stand up under the load of beans. We had to prop up nearly every pole. This year will use heavy poles and trellis wire. A. J. Packard. Saco, Me. S. E. Gwinn, Fayette Co. W. Va. writes:—From 6 vines of the Prolific Beans 1 sold 3 mushels—a family of 9 eat from them liberally, and there is still a bushel on the vines. Mrs. C. E. Liesford, Kinards, S. C. writes:—From 5 vines we ate beans all summer, and then gathered over one-half gallon of seed. They were the admiration of the neighborhood: I have picked a full mess of beans for dinner, without changing position at the vine. Our summer was dry,—but the vines continued green and bearing, while all other kinds of beans dried up; they are the best bean I ever saw grow, and I cannot command words to express the true value of such a garden treasure.

Mr. A. T. Cook. Your Powell beans were the grandest I ever saw.

FROM 5 HILLS WE PICKED 5 BUSHELS.

They continued green and bearing long after all other beans were dead. I was greatly pleased with all the seeds, and especially so with the extras.

World Famous Prizetaker Onion.

ITS MILDNESS OF FLAVOR AND TENDERNESS ARE UNEX-CELLED EVEN BY THE BERMUDA VARIETIES.

TEMPERANCE, PURITY, AND GODLINESS.

Our old friend A. T. Cook. of Hyde Park, N. Y., sends out a nice catalog of garden seeds, etc., and actually takes space on its crowded pages to plead for temperance, purity, and godliness. It is refreshing to find a seed catalog that not only refuses to sell to bucco seed, nor anything else that, in his opinion, will not be a real substantial benefit to his customers, but uses its valuable space to remonstrate with the boys on commencing to use tobacco. Brief exhortations for righteousness are scattered all through its pages.
